GB: ToC.doc Prepared 7/29/11

Executive Summary

Spring 2011 Administration: The *Student Evaluation of Instruction* (SEOI) was administered to all full-time and part-time faculty. Approximately 121,184 surveys were sent out in (5,346) envelopes; 78,310 surveys were returned to the Office of Institutional Research. The return rate for the SEOI packet envelopes was 96%. The response rate for the survey was 65%. The Instructors' reports were provided to academic, workforce deans and to the respective executive secretaries on May 20, 2011 on a CD.

Methods Used: The optical-scan survey instrument was created using ScanTools for Windows, by National Computer Systems. The scanned data were analyzed by OIR using SPSS 18.0, and individual instructor reports were prepared. Also provided to students with the questionnaires were student comment sheets, which were later returned in their original hand-written form to the instructors via their respective deans' offices. Library data were analyzed by subject and location and provided to library chairs for their use.

Overview of SEOI Responses, Spring 2011

In the responses discussed below, respondents who neither agreed nor disagreed, indicated that they were 'neutral', 'had no basis for judgment' or simply did not respond to the question.

In Part I, Evaluation of Instruction:

- The course requirements in the syllabus were clearly stated; 91.5% of students agreed and 1.6% disagreed.
- The textbook used for this course is suitable; 86.8% of respondents agreed while 2.4% disagreed.
- Other instructional materials (tapes, handouts, web sites, etc.) used in this course enhanced my learning of the subject matter; 83.2% of respondents agreed, and 3.4% disagreed.

In Part II, Evaluation of Instructor:

- The instructor asks test questions that deal with material that is covered in the course; 92.2% agreed or strongly agreed, and 2.3% disagreed or strongly disagreed.
- *The instructor communicates clearly*; 88.4% agreed or strongly agreed, and 4.1% disagreed or strongly disagreed.
- *The assignments were relevant to the course*; 92.9% agreed or strongly agreed, and 1.7% disagreed or strongly disagreed.
- *My grades are an indication of learning*; 85.7% agreed or strongly agreed, and 4.0% disagreed or strongly disagreed.
- *The instructor treats students with respect*; 93.2% agreed or strongly agreed, and 1.9% disagreed or strongly disagreed.
- The instructor is available for student consultation; 88.9% agreed or strongly agreed, and 2.3% disagreed or strongly disagreed.
- *The instructor grades impartially*; 80.1% agreed or strongly agreed, and 8.0% disagreed or strongly disagreed.
- The instructor gives me timely feedback on graded work; 86.8% agreed or strongly agreed, and 3.7% disagreed or strongly disagreed.

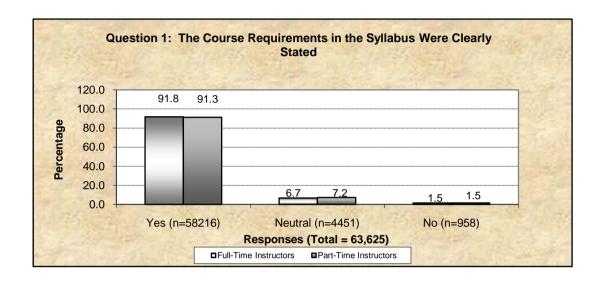

In Part III, Lab Evaluation:

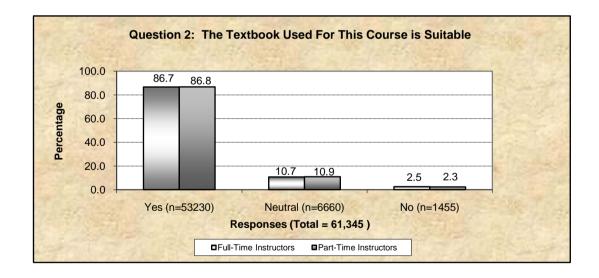

In the section below, students who indicated an opinion are calculated in the agreement/disagreement percentages; those who indicated 'no basis for judgment' or did not respond were assumed not to be enrolled in laboratory or clinical courses.

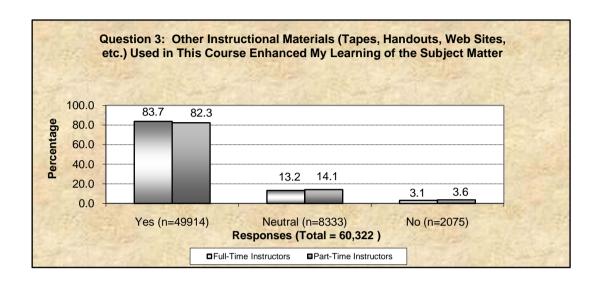

- The instructor explains appropriate safety procedures for this laboratory/clinical; 85.9% agreed or strongly agreed, and 2.2% disagreed or strongly disagreed.
- The instructor links the laboratory exercises to lecture; 84.6% agreed or strongly agreed, and 2.6% disagreed or strongly disagreed.

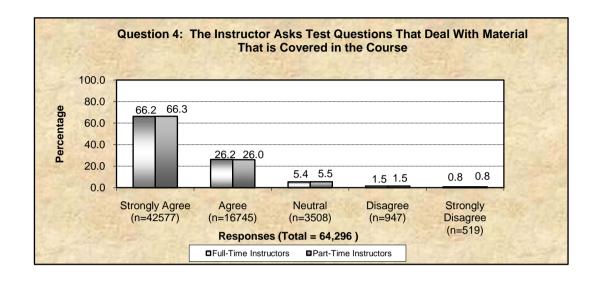

In Part IV, Overall Evaluation:

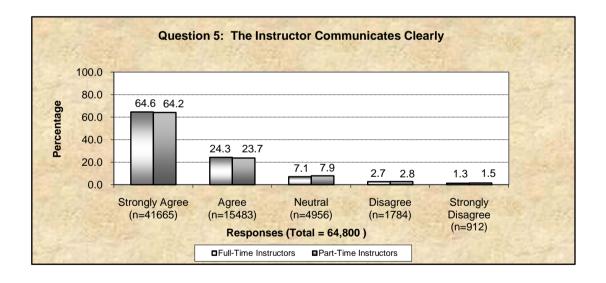

- The instructor encourages me to become actively engaged in the learning process; 88.7% agreed or strongly agreed and 3.0% disagreed or strongly disagreed.
- *I would recommend this instructor to other students*; 85.7% agreed or strongly agreed, and 5.3% disagreed or strongly disagreed.

INSTRUCTOR'S DIRECTIONS

Enclosed are two sets of forms. All students are requested to complete an SEOI Questionnaire. The Written Comments form is optional. Please do not staple the forms together.

- 1. Specify an individual and location for the student proctor to return completed surveys, usually a department or campus office.
- 2. Recruit a student proctor to conduct the survey. Review with the student proctor their directions as the proctor (see Student Proctor's Directions).
- 3. Give the survey packet to the student proctor. Inform the student proctor about the return of the surveys (name of individual and location). In order to ensure proper handling of SEOI forms, be sure to give the student proctor the envelope in which the survey materials were received. This is the return envelope.
- 4. Write your name and the Class number (**not the course number**) on the blackboard. Explain to your students that the purpose of this survey is to improve certain aspects of the course and to help you improve the way you teach. Please be sure to explain that the survey is anonymous. <u>Under no circumstances will the instructor know the student's identity</u>. Introduce the student proctor to the class.
- 5. Leave the room and do not return until the students have completed and turned in their surveys to the student proctor. The proctor is responsible for turning the materials in. Please make sure the student proctor understands where to turn in the survey packet.

If you have any questions regarding these directions please call 713-718-6259

STUDENT PROCTOR'S DIRECTIONS

Enclosed are two sets of forms. All students are requested to complete an SEOI Questionnaire. The Written Comments form is optional. Please do not staple the forms together.

- 1. Make sure that the Class number that the instructor wrote on the board matches the class number on the survey packet. After the instructor has left the room, pass out both sheets of the Student Evaluation of Instruction (SEOI) survey. Keep any extra forms in your possession.
- 2. Read "Statement of Intent" to the students:

This survey instrument has been designed to identify strengths and weaknesses of your instructor and your perceptions of the effectiveness of the class instruction. Please give us your serious and fair evaluation of both your and class instruction.

- 3. Read the following instructions to the students:
 - Use only a #2 pencil or a blue or black ink pen.
 - Write the instructor's name and bubble in the Class number in the upper right corner of the Questionnaire and the Written Comments sheet, if used. (Check to see that this is being done properly.)
 - Fill out the Questionnaire independently, without consultation with other students.
 - Do not sign your name or leave any marks of identification on the answer sheet.
 - If this is a lecture class, you do not need to complete Section III. If this is a lab, clinical, workshop or practicum class complete all sections.
 - Written comments are optional but very much encouraged.
- 4. When students have completed the survey, collect the forms, place them face up in the same direction, and place both completed and unused forms into the original envelope and close it.
- 5. Return the envelope (containing all forms) to the location and individual specified by your instructor. (This is most likely the department or campus secretary) **Do not return** the forms to the instructor.

CLASS

INFORMATION SHEET - STUDENT EVALUATION OF INSTRUCTION (SEOI) PROGRAM HOW TO READ THE INDIVIDUAL INSTRUCTOR REPORT

Your individual evaluation report contains the following information:

- Name, Class Number (CRN), Course Title, Course Number
- Question identification numbers (Q01 Q15) appear across the top of the evaluation report. The numbers correspond with the items on the standard questionnaire forms.
- TOTAL The "TOTAL" row shown reflects the total number of students in a specific course who responded to each item. The numbers underneath "TOTAL" correspond to the items on the <u>answer scale</u> for the standard questionnaire.

Values for the answer scale to Questions 01-03:

1 = YES

2 = NEUTRAL

3 = NO

4 = NO BASIS FOR JUDGMENT

1 = STRONGLY AGREE

Values for the answer scale to Questions 04-15:

2 = AGREE

3 = NEUTRAL

4 = DISAGREE

5 = STRONGLY DISAGREE

6 = NO BASIS FOR JUDGMENT

MEAN - Averaged scores for each questionnaire item per individual class.

At the bottom of the last page for each report, you will find <u>cumulative statistics</u> which provide the following information:

- TOT. FREQ (total frequency) Indicates the cumulative sum of students from your combined classes who responded to each item.
- TOTAL MEAN Indicates combined mean scores for each questionnaire item for all your classes.
- SYST MEAN Indicates the combined mean scores on each questionnaire item for your discipline across the entire college system.

NOTE: If you taught more than one course during the semester, the data for those courses appear on the printout under the respective course numbers. Now, turn to the other side of this sheet for an illustration of how to read your report.

HOUSTON COMMUNITY COLLEGE SYSTEM STUDENT EVALUATION REPORT - BY INSTRUCTOR

	SYST MEAN	1.85	1.20	1.19	1.85		1.17	0	0	0

FOR QUESTIONS 01 - 03:

Look at the TOTAL

Now look under the column Q01:

- Eight students responded to questionnaire item one.
- Three students answered "Yes" to Question 1.
- Three students answered "Neutral" to Question 1.
- Two students answered "No" to Question 1.
- None of the students answered "No Basis for Judgement" to Question 1. There are four possible answers to Q1-Q3, but if a field is not populated, it does not appear on the report.

Now look under the column Q04:

- Eight students responded to questionnaire item four
- Three students answered "Strongly Agree" to Ouestion 4.
- Three students answered "Agree" to Question 4.
- Two students answered "Neutral" to Question 4
- None of the students answered "Disagree",
 "Strongly Disagree", or "No Basis for
 Judgement" to Question 4. There are six possible
 answers to Q4-Q15, but if a field is not populated,
 it does not appear on the report.

FOR QUESTIONS 04 - 15:

Look at the TOTAL.

Look at the TOT. FREQ row that (number of responses). Now look under column Q01:

• The total number of responses for all classes taught by the instructor is eight. In the example, the number for the cumulative statistic is the same because the instructor only taught one class. For an instructor who taught more than one class, the cumulative statistics would reflect the total responses received from all students taught during the semester.

The System mean is the cumulative average for all instructors from the appropriate teaching area who participated in the program during the semester. These figures provide comparative performance information.
